

## **Build Mastery and Cope Ahead**

1.	Plan on doing at least one thing each day to build a sense of accomplishment.
	Example:

- 2. Plan for success, not failure.
  - Do something difficult, but possible.
- 3. Gradually increase the difficulty over time.
  - If the first task is too difficult, do something a little easier next time.
- **4.** Look for a challenge.
  - If the task is too *easy*, try something a little harder next time.

## ope Ahead of Time with Difficult Situations

- **1. Describe** the situation that is likely to prompt problem behavior.
  - Check the facts. Be specific in describing the situation.
  - Name the emotions and actions likely to interfere with using your skills.
- 2. Decide what coping or problem-solving skills you want to use in the situation.
  - Be specific. Write out in detail how you will cope with the situation and with your emotions and action urges.
- 3. Imagine the situation in your mind as vividly as possible.
  - Imagine yourself IN the situation NOW, not watching the situation.
- 4. Rehearse in your mind coping effectively.
  - Rehearse in your mind exactly what you can do to cope effectively.
  - Rehearse your actions, your thoughts, what you say, and how to say it.
  - Rehearse coping effectively with new problems that come up.
  - Rehearse coping effectively with your most feared catastrophe.
- 5. Practice relaxation after rehearsing.
